TekLinks Attains Advanced Wireless LAN Specialization

TekLinks, a regional IT services firm, based in Birmingham, AL is pleased to announce it has achieved their Advanced Wireless LAN Specialization from Cisco®.

Cisco recognizes TekLinks, a Cisco Gold Certified Partner, for its knowledge and expertise in building and maintaining unified wireless LAN solutions. The training involved in achieving this specialization enables TekLinks to deliver successful and productive wireless solutions to our clients.

"Achieving the Cisco Advanced Wireless LAN Specialization enables TekLinks to deliver the wireless solutions customers require to increase productivity through anytime, anywhere network access and extend beyond the traditional wired network," said Terry Miller, VP of Engineering Services. "Wireless solutions and services are essential elements in TekLinks' portfolio. Adding this specialization is a part of our firm commitment to excellence."

TekLinks holds Cisco's Advanced Specializations in the following areas: Data Center Network Infrastructure, Data Center Storage Network, Routing & Switching, Security, Unified Communications and Wireless LAN. TekLinks also holds Cisco certifications and specializations in network based physical security, digital signage, digitally controlled & managed utilities, multi-tenant communications and technology solutions.

These and other specializations and authorizations will continue to be recognized on the Partner Locator section of Cisco's website. To access the Partner Locator, please visit:
