TekLinks Achieves Microsoft Unified Communications Solutions Competency

[TekLinks](#), a regional I.T. services provider headquartered in Birmingham, Alabama, announced today that it has met the requirements for Unified Communications Solutions Competency from Microsoft, demonstrating that TekLinks adheres to the high standards required by Microsoft with regards to their many unified communications platforms.

Chris Hoscheid, Practice Manager, stated: "It's our goal to help guide our clients to technology that suites their business needs. The Microsoft Unified Communications suite of products not only completes a much needed convergence of voice and data, but the convergence of our clients' needs and TekLinks engineering abilities."

The Unified Communications Solutions competency ensures that partners attain the necessary technical, marketing, and sales resources to develop and recognize expertise in streamlining communications through Microsoft unified communications technologies, including Microsoft Exchange Server, Microsoft Office Communications Server, and Microsoft Office Communicator.

About TekLinks

TekLinks is a leading provider of IT and Managed Services in the Southeast. TekLinks partners exclusively with market leaders that are the dominant players in their respective fields-- Cisco, Microsoft, EMC, Citrix, and VMWare. Additionally, TekLinks has leveraged their technical expertise to develop a managed services practice that offers a full range of managed offerings, from desktop support to data center services. TekLinks is committed to leading the market in technical excellence and next generation managed services.

TekLinks, We Know IT.
