TekLinks Achieves EMC Velocity² ASN Specialty in Consolidation

[TekLinks](#), a regional I.T. services provider headquartered in Birmingham, Alabama, announced today that it has met the requirements for EMC's Velocity² ASN Specialty Program in Consolidate, demonstrating that TekLinks is qualified to deliver SAN or NAS solutions to ensure efficient power and storage utilization that is dynamically configured and managed.

Chris Hoscheid, Director of Storage and Virtualization, stated: "We are excited to become a part of this elite community. The engineers at TekLinks have shown their dedication to the EMC products and by being recognized into this group, it shows."

The EMC Velocity² ASN Specialty Program in Consolidate recognizes partners for their deeper knowledge and expertise and their ability to offer additional value to their customers by delivering complete end-to-end solutions that combine hardware, software, and services skills.

About TekLinks

TekLinks is a leading provider of IT and Managed Services in the Southeast. TekLinks partners exclusively with market leaders that are the dominant players in their respective fields-- Cisco, Microsoft, EMC, Citrix, and VMWare. Additionally, TekLinks has leveraged their technical expertise to develop a managed services practice that offers a full range of managed offerings, from desktop support to data center services. TekLinks is committed to leading the market in technical excellence and next generation managed services.

TekLinks, We Know IT.
